

Military Credit

Credit for Army training may be obtained by submitting an Army/American Council on Education Registry System transcript from Army directly to the college or university. ACE (American Council on Education) translates military courses and occupations into academic credit, provides guidelines to interpret and recommend credit for formal service-school courses, demonstrated proficiency in military occupations, and college-level tests. Service members must have separated or retired by 1981.

Credit for Sailor and Marine training may be obtained by submitting a Sailor/Marine American Council on Education Registry Transcript (SMART). Service members must have separated or retired from active duty on or after October 1, 1999.

AARTS and SMART are academically accepted records validated by ACE. See web site below for more information.

Credit for Air Force training may be obtained by submitting a request to the Community College of the Air Force or go to your nearest Air Force base education office. See web site below for more information.

Service members with credits/training for the Army pre-1981 and Sailors/Marines pre-1999 must request a DD295 and submit it for your college credit award review.
